EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 21-27 and 31-36 to species non-elected without traverse in the response filed 10/27/2005.

Accordingly, claims 21-27 and 31-36 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Claims 28-30 are allowed because the prior art of record does not disclose or suggest a timepiece having a plurality of bulb-shaped semiconductor elements as a drive source for the timepiece module between a transparent face and a supporting member. The term "bulb-shaped" element is understood to mean generally spherically shaped element, as set forth in the specification and drawings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vit W. Miska whose telephone number is 571-272-2108. The examiner can normally be reached on M-F 9-5:30.
